Trouble-free NHS repeat prescription

If you're on a repeat prescription and you find it inconvenient to travel to your GP or pharmacist then nominate SmartCare to do it for you. This is done electronically using the Electronic Prescription Service. (EPS)

Once you have nominated us we are able to access your prescription, dispense it and deliver also to a place and at a time that is convenient for you.

If your GP is unable to forward your prescription electronically, then we will gladly collect it from your medical provider (with your permission) and dispense and deliver it for you. (Most GP's do however have access to the EPS)

Once we have been formally nominated by you then we can also provide you with reminders of when your prescription needs restocking. This helps us to help you sustain a healthy regimen.

Free of charge delivery to a convenient place

SmartCare Pharmacy is committed in providing a high quality healthcare that specialises in creating a bespoke service to cater to an individual's specific needs.

For example if you are physically disabled, or an elderly person or have young children or are in full-time job and you find it difficult to travel to collect your medication from a pharmacy then be assured this is what we do best. We will collect your medication for you and delivery it free of charge to your door-step or any other convenient place of choice.

The Electronic Prescription service

Supporting the NHS

What is the Electronic Prescription service (EPS)?

The Electronic prescription service (EPS) is provided by the NHS service. It is a new system that gives GPs and practice nurses an easy and secure way to send your prescription to a dispenser (e.g. pharmacy) of your choice who can dispense your medication and medical equipment.

What does this mean for you?

If you collect repeat prescriptions you will not have to visit your GP practice just to pick up your paper prescription. Instead, your GP will send the prescription electronically to the place you choose, saving you time.

Is this service right for you?

Yes, if you have a stable condition and you:

- Don't want to go to your GP practice every time to collect your repeat prescription.
- Want to collect your medicines from the same place most of the time or use a prescription collection service now.

Accredited by the Royal Pharmaceutical Society (RPS) and General Pharmaceutical Council (GPhC)

No-if you:

- Don't get prescriptions very often.
- Pick up your medicines from different places.

How can you use EPS?

You need to select a place for your GP or practice to send your electronic prescription to, this method is called Nomination. You can select a:

- A pharmacy
- A dispensing appliance contractor (if you use one)
- Your dispensing GP practice (if you are eligible)

Can I change my nomination or cancel it and get a paper prescription?

Yes you can.

- If you don't want your prescription to be sent electronically inform your GP.
- If you want to change or cancel your nomination speak to any pharmacy or dispensing appliance contractor that offers EPS, or your GP practice.
- Inform them before your next prescription is due or your prescription may be sent to the wrong place.

Is EPS reliable, secure and confidential?

Yes: Your electronic prescription will only be seen by the same professionals that have access to your paper prescription.

I am the patient named below or carer of the patient named below. Nomination has been explained to me and I have also been offered a leaflet that explains nomination.

I would like to nominate Smartcare Pharmacy as my nominated pharmacy for dispensing prescriptions issued by the NHS Electronic Prescription Service.
